

ISO compliant HSE software

EcoWebDesk receives again its certificate of compliance

Berlin, January 7, 2015 – As a result of successfully passing external audits, the software EcoWebDesk has been confirmed again to be fully compliant with ISO 14001, ISO 50001 and OHSAS 18001 standards. The software is therefore suitable to enable users to implement, maintain and improve environmental and energy management systems, as well as occupational and safety management systems as specified in these international standards. With the latest software release EcoWebDesk 7.1 users can efficiently build compliance management systems and consequently fulfill the external audit and certification requirements. The DEKRA group, the global provider of audit and certification services, confirmed the compliance with international standards at the end of 2014. The issued certificate is valid until the end of 2016.

As the amount of legal regulations in the area of health, safety and environment continues to increase, using a compliance management solution is becoming essential for many companies. With EcoWebDesk, the professional software solution developed by EcoIntense, users are well equipped to reach their environmental, health and safety goals.

EcoWebDesk® is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management. In EcoWebDesk key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is fully compliant with DIN EN ISO 14001, 50001 and OHSAS 18001, officially confirmed by the global DEKRA Group. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany) as well as in Houston, Texas (USA).
