

EcoIntense welcomes Chinese delegation

Health and safety specialists from China learn from the established software provider in Berlin

Berlin, December 10, 2015 – A delegation from the National Office for Health and Safety China visited the headquarters of the software specialist EcoIntense on December 10 in Berlin. The group of 22 participants included employees of government agencies and companies located in several Chinese provinces. Visitors learned about the features of EcoWebDesk, a web-based software for health, safety and environmental management, as well as sustainability management. A guest speaker from the municipal water supplier Berliner Wasserbetriebe gave an insight into the daily use of the software from the customer's point of view. Generating risk assessments proved to be one of the most interesting software features for the participants.

During a two-week educational tour in Germany, the delegation visited government agencies and companies that provide products and services for occupational health and safety. The participants learned in seminars about today's challenges and requirements that companies face with big data, data analysis and use in the health and safety management. The educational program was organized by Carl Duisburg Centren in Cologne, a non-profit association for international education and qualification.

EcoWebDesk® is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is fully compliant with DIN EN ISO 14001, 50001 and OHSAS 18001, officially confirmed by the global DEKRA Group. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany) as well as in Houston, Texas (USA).
