

Software compliance confirmed

EcoWebDesk passes again compliance audits in accordance with ISO 14001, ISO 50001 and OHSAS 18001

Berlin, January 19, 2016 – The online software of EcoIntense, the company based in Berlin, has once again successfully passed compliance audits in accordance with ISO 14001, ISO 50001 and OHSAS 18001. The global audit and certification service provider DEKRA Assurance Services has officially confirmed that the software is suitable for management systems in the areas of Health, Safety & Environment (HSE) and energy. The results of the audits demonstrate that EcoWebDesk provides users with a reliable tool for implementing, maintaining and improving management systems. Furthermore, companies pursuing certifications in accordance with ISO 14001, ISO 50001 and OHSAS 18001 can use the web-based solution to appropriately support the process.

Independent accreditation organizations have confirmed in annual audits since 2010 that the HSE software EcoWebDesk is compliant with international standards. In regular updates the software is optimized according to new legal, professional and technical requirements with the software release 8.1 currently available.

EcoWebDesk® is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany) as well as in Houston, Texas (USA).
