

## EcoWebDesk App for health, safety & environmental management

### Software provider EcoIntense launches a new App

Berlin, April 4, 2016 – The software for HSE and sustainability management EcoWebDesk is now available as an App. Customers who use the rental version Software as a Service, short SaaS, can now report incidents and accidents via iPhone while being away from their desks. The colleagues in charge receive automatic email notifications and can immediately process and assess near miss situations, property and environmental damages as well as personal injuries. EcoIntense has announced that more software features are already underway. The free EcoWebDesk App will soon be available for other mobile operating systems.

*EcoWebDesk® is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany) as well as in Houston, Texas (USA).*
