

## **EcoWebDesk 9.0 released in new design**

### **HSE software's user interface comes with a new look**

Berlin, July 19, 2016 – In the latest release EcoWebDesk 9.0, the software for health, safety and environmental (HSE) management as well as sustainability comes with a new design including a new product logo. Among the most important visual changes are spacious work areas, a functional color scheme and reduced dashboard complexity. These innovations improve readability and steer the user's focus towards the most relevant elements of the user interface. Technical updates mainly cover software expansions regarding the evaluation of sustainability indicators and improved availability of the mobile application for numerous mobile devices and smartphones.

*EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. **EcoIntense GmbH** is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany), Linz (Austria) and Houston, Texas (USA).*
