

EcoIntense is a “Great Place to Work”

Software Provider Receives Award “Best Workplaces in Berlin-Brandenburg 2017”

Berlin, February 17, 2017 – EcoIntense GmbH was honored again in the Great Place to Work® contest as one of the best employers in Berlin-Brandenburg. The Berlin-based software specialist with 80 employees offers particularly beneficial and attractive working conditions and business culture.

The basis of the evaluation by the independent Great Place to Work® institute was an anonymous employee survey focusing on the topics such as company identification, work-life balance and remuneration as well as the action quality of personnel and management work. CEO Markus Becker offered this summary of the benchmark study’s key findings: “Employees love our team spirit and 100 percent of them would recommend EcoIntense as a very good employer. We are very proud of this and will continue to enhance our business culture as well as develop individual progress plans to keep our employees’ satisfaction levels high.”

Two years ago, EcoIntense received the Great Place to Work® quality seals “Best Workplaces in Berlin-Brandenburg 2015” and “Best Workplaces ITC 2015” (ITC: Information Technology & Telecommunications). Great Place to Work® is a global research and consulting network that supports companies in around 50 countries in creating an employee-oriented business culture. The central goal is building confidence, enthusiasm and team spirit.

EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management.
