

## Successful annual results for EcoIntense

### Software manufacturer doubles number of new customers compared to previous year

Berlin, March 15, 2017 – The software provider EcoIntense finished 2016 with the best result in company history. Compared to previous year, the number of new customers was doubled. EcoWebDesk, the online solution for health, safety and environmental (HSE) management as well as sustainability, was implemented especially by medium-sized companies in the metal, pharmaceutical and logistics industries. These companies include GARDENA Manufacturing GmbH, Pure Green GmbH, Luye Pharma AG and ZUFALL logistics group. ‘The sharp increase in new customers and the loyalty of our long-standing clients confirm that our software solution meets the demands of health, safety, environmental and sustainability specialists and managers. Regular content-related and technical software updates ensure that our users can continue to rely on our proven system,’ says CEO Markus Becker.

EcoIntense grew significantly and currently employs over 80 people. The software solution of the Berlin-based company successfully passed the regular audits by DEKRA Assurance Services at the end of the year. The global audit and certification service provider confirmed once again that the web-based solution EcoWebDesk is suitable for assisting management systems according to ISO 14001, ISO 50001 and OHSAS 18001.

*EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany), Linz (Austria) and Houston, Texas (USA).*
