

EcoIntense at terratec for the first time

Software provider presents online solution for health, safety and environmental management

Berlin, March 20, 2017 – EcoIntense will present the web-based software EcoWebDesk at the terratec trade fair for the first time. The industry event for waste management, circular economy and protection of environmental resources takes place at the Leipzig exhibition grounds from April 5th to 7th. At the EcoIntense booth, visitors can gain insight into the established online solution that helps you centrally and reliably control all tasks in the areas of disposal and audit management, legal compliance, environmental protection, health, safety and sustainability management. Numerous companies in the supply and disposal industries have been relying on the standardized solution for many years. The Berlin-based software provider will present the latest release EcoWebDesk 9.2 at the Leipzig exhibition grounds, booth E02 in the glass hall.

EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany), Linz (Austria) and Houston, Texas (USA).
